

Plug your losses.

Pumps can be a huge drain on plant resources.

The average annual maintenance and operation spend on pumps is 50 percent greater than for any other rotating machine. Plant Performance Services from ITT can help. In fact, we typically return savings of up to 25 percent annually.

Think about ITT.

ProActivity

Plantwide optimization of pump systems.

REsolve

Team approach to resolving bad-actor pump systems.

Efficiency

Pump system optimization that lowers energy bills.

Monitoring

Advanced analysis to maximize reliability.

Design

Higher efficiency through better design.

Repair

Expert remanufacturing that lowers maintenance costs.

Learning

Education to raise your staff's pump expertise.

Inventory

Pump inventory and supply chain improvements.
